Packing and Transportation

Why Choose Us

We have our own professional team:

- The purchasing department can make comprehensive purchases in the Chinese market.
- The maintenance department has quality inspectors with 5 years of experience and maintenance personnel with more than 15 years of experience.
- The painting department has a professional painting workshop and is equipped with professional painting masters.
- The parts department is the strongest. We are specialized in making parts for more than 10 years and exporting business. It is an excavator parts company with Alibaba's 13 years of foreign trade export.

The information is true and reliable

Take pictures and record videos in the whole process of excavators selection, washing, maintenance, and repainting. And provide it to customers, ensure customers understand the whole process of order.

Professional packing and delivery service

- Our company has been engaged in foreign trade for many years and has a trusted freight partner. Can provide the best and cheapest international shipping price.
- If the excavator needs to be disassembled, we will provide pictures and videos of the disassembly process so that the customer can assemble it well after receiving it.

Excellent after-sales service

Since we have a strong parts department, we will provide product manuals to customers for each used excavator. And our parts department will record all parts so that customers purchase replacement parts later. Let customers **NEVER** worry about parts! We have this confidence. You deserve it!

Q&A

Q: How to guarantee the condition and lifetime of the machine?

A: Firstly, we choose good condition and less hour used machines. Secondly, we are available for third part certificate of all of the machines. Thirdly, all machinery are available for your inspection in its place. Last, we also provide you guaranteed pre-sale and after-sale service refer to our details page.

Q: How can customers pay visit and machine checking in China ?
